

# Taking the pain out of the Third Party Risk assessment process

You know that assessing your suppliers is a critical aspect of your third-party risk management program. But you also know it's expensive, time-consuming, and often painful... for both your organization, as well as each supplier.

SupplierAssess is a managed service that allows you to supplement your existing supplier risk management programme by leveraging DVV Solutions expertise in performing remote and on-site Third Party assessments. The subscription based service uses industry best practices to enable you to scale your Third Party assessments without the need for additional staff or resources.

SupplierAssess accomplishes this by providing the technology, process and people necessary to efficiently understand supplier risk, help you remediate inefficient controls and better prepare and protect your organisation from Third Party risks.

## SupplierAssess delivers

- ✓ **Streamlined Assessments** – the resource to assess mission-critical suppliers within a shorter timescale
- ✓ **Enhanced Capability** – the processes, resource and skills to manage and analyse large volumes of complex supplier risk assessments
- ✓ **Independent, Professional Verification** – the collection, analysis and reporting of each supplier's risk profile from CTPRP-certified Risk Assessors – especially critical for highly regulated industries
- ✓ **Improved Scalability** – the flexibility to manage more suppliers and assessments with greater efficiency

# Third Party Risk Management delivered to your desk

SupplierAssess leverages our Supplier Risk Manager and Supplier Threat Monitor platforms to provide to provide robust management of assessment data and real-time threat intelligence. We utilize Shared Assessments industry-standard practices including Standardised Information Gathering (SIG) questionnaires and Agreed Upon Procedures (AUP) for onsite assessments.

Your dedicated certified Risk Assessor performs detailed analysis based on all the data and evidence gathered and will then present and consult on the resulting risk report and recommended improvements to mitigate any identified risks.

## Each SupplierAssess service contract provides

- Collection and delivery of an annual risk assessment, analysis and report
- Consultation of recommended remedative actions for any identified risks
- Access to a continuous threat monitor dashboard for your supplier

## How it Works

- We understand your risk appetite, security objectives and compliance requirements
- We collect supplier questionnaires, supporting evidence and onsite assessments
- We provide detailed risk analysis, reports and recommendations
- We work with you to implement remedative measures and process improvements
- We provide continuous threat intelligence between annual assessments

## Key Benefits

- ✓ Better understand the risks of potential breaches and data loss from your suppliers
- ✓ Reduce the time and cost associated with existing manual process and infrastructure
- ✓ Standardise your processes and metrics for greater efficiency
- ✓ Significantly improve time-to-complete and response rates for supplier questionnaires
- ✓ Increase flexibility to scale your Third Party risk assessment process

## About DVV Solutions

Established in 1999, we have become one of the UK's leading providers in the design, implementation and management of Third Party Risk Management (TPRM) and IT Security services.

Our ethos is to provide you the best value for money by offering the highest quality of service within a clear and consistent cost model. We do this by leveraging our extensive experience in the IT services sector and our best-of-breed technology and service partners.
