What are DVV Solutions ProcessUnity Consultancy and Managed Services?

As an authorised ProcessUnity Managed Service Provider (MSP) DVV Solutions provide a variety of managed services that enable you to make the most of your investment in ProcessUnity Vendor Cloud Third Party Risk Management (TPRM) automation and generate recognisable value in terms of risk assurance, remediation and regulatory compliance.

TPRM Program and Framework Design

We build sustainable, standards-based programs of Third-Party risk assurance and regulatory compliance for clients that can integrate or be exclusively built around ProcessUnity Vendor Cloud automation, covering:

- Risk Appetite & Tolerances
- Supplier Selection & Categorisation
- Risk Tiering & Domains
- Risk Register

- Due Diligence Requirements
- Risk Metrics & Reporting
- Roles & Responsibilities
- Program Resource Requirements & Costing

Third Party Risk Assessments-as-a-service

We deliver a complete Third Party risk assessment service with all stages of the acquisition, analysis and reporting process managed on your behalf, incorporating:

- Third Party risk assessments and evidence gathering
- Risk Analysis, Scoring and Reporting
- Regular review and reporting of the findings and risks identified (e.g. KRIs & KPIs)
- Scalability to allow additional Third Parties and services to be incorporated in a cost-effective manner
- Simple and effective expansion into the management of downstream supplier and 4th Party risks

Third Party Risk Remediation & Advisory

Our team of Certified Third Party Risk Professionals (CTPRPs) and Assessors (CTPRAs) provide professional and practical support in the ongoing identification, management and remediation of Third Party risk, including:

- Validation of risks with each Third-Party
- Management of compensating controls / remedial actions with selected Third-Parties
- Administration of your Risk Register
- Support and advice on risk management best-practice and regulatory requirements
- Regular review and reporting of remediation action plans

√ Improve your Return on Investment in ProcessUnity Vendor Cloud

Removing "white noise" in feeds and alerts and generating more value from existing ProcessUnity licences

√ Make ProcessUnity a More Valuable part of your TPRM Program

Embedding ProcessUnity Vendor Cloud deeper within your Enterprise Risk Management framework

√ Greater Scalability and Efficiency of your Risk Assurance

Making internal resources more efficient and opening up resource to expand your TPRM program

Are DVV Solutions ProcessUnity Managed Services right for you?

➢ Do you need to be more effective in the use of ProcessUnity Vendor Cloud within your supplier base?

➢ Are you looking to fully outsource day-to-day management of your Third Party risk assessment program?

➢ Do you need support in developing and delivering a new program of risk assessments and risk reporting?

➢ Are limited resource/capacity constraining your ability to consume, analyse and manage your risk assessment and remediation workload?

➢ Do you need to quickly mature your TPRM programs and processes in line with regulatory requirements (e.g. GDPR, CCPA, EBA, Operation Resilience, PCI, ISO)

➢ Do you lack the necessary skills to consume large volumes of risk assessment and reporting data?

➢ Are you looking to incorporate addition risk data into your TPRM program (e.g. Security Ratings, Continuous Monitoring, FAIR Model)

Talk to us about your challenges

Do you need assistance to help define & build your risk assurance / risk ratings program?
Are you unable to scale your TPRM program or find the right skilled resources to support it?
Do you need support in classifying vendors into meaningful risk tiers?
Do you need to configure & filter your risk assessment findings into a manageable stream of relevant risks?
Are you able to interpret your findings and risks and effectively report them at Board level?
